## **Need 4 Speed Exhausts / REMUS SA Customer Information**

**Nov - 2012**

### **REMUS Information Sheet – Toyota 86 & Subaru BRZ**

Please find listed below the information and pricing pertaining to the REMUS Stainless Steel CatBack Performance Exhaust systems that we now stock at REMUS SA in JHB for the latest 86 and BRZ ranges.

The REMUS CatBack Performance Exhaust System consists out of a REMUS Racing Tube, which replaces the standard front silencer, and then a rear performance silencer with very nice looking 127mm Tail Pipes.

Fitment is 100% bolt-on. It would be a pleasure for us to receive and process your orders. Delivery of parts can be done within 24 – 36 hours anywhere in the country.

Best regards

## Performance figures for the exhaust system

- **5 – 8 hp gain in power** (no engine managment setting changes required)
- **Much reduced exhaust back pressure** (compared to the standard system)
- **86 / BRZ much more responsive** (Engine revs up much easier)
- **Famous Deep REMUS Racing Sound !!**
- **No intrusive or excess noise inside the car at any rev range**

## REMUS Reponder Unit

The REMUS Responder improves engine response in a significant dimension by modification of the gas pedal characteristic. Improved response, reduced response time and a lot more driving pleasure are given to every driver after fitting the REMUS Responder.

Due to the mounting at original plug-in connecting points of the gas pedal sensor the installation of the REMUS Responder can be done very quick and easy. The plug & play solution can also be removed in a couple of minutes, if the initial level is required.

The REMUS Responder offers four different operating levels – from sporty to economical – to be chosen by the driver, selecting his favoured response level whilst driving.

Gaspedal / Accelerator pedal

**REMUS Responder**

dynamisch - reaktionsschnell - variabel *dynamic - responsive - variable*

- » Erhöhtes Ansprechverhalten / *Improved throttle response*
- » Verkürzte Reaktionszeit / *Reduced response time*
- » Mehr Dynamik / *More dynamic*
- » Variable Leistungsstufen / *Variable power levels*

**4 Levels**

- ON / OFF
- SPORT
- SPORT +
- ECO

Part no.	Description	Unit Price (Excl VAT and fitment)
R802601	TOYOTA GT86, Type FT20, 2012=> 2.0l 147 kW SUBARU BRZ, 2012=> 2.0l 147 kW	<b>** R 2,975</b>

**\*\* Please note** ..... Above Responder Units only ordered on specail request. Lead time required for delivery is 3 – 5 weeks from date of placing order.

## Exhaust Options & Pricing

### Model info and pricing:

Car	Engine
<b>TOYOTA GT86, Type FT20, 2012=&gt; SUBARU BRZ, 2012=&gt;</b>	<b>2.0L 147 kW</b>

Part number	Part description	Unit in ZAR (Excl VAT & Fitment)
<b>906012 0000</b>	Racing tube instead of front silencer, without homologation	<b>R 1,919</b>
<b>906012 1585S</b>	Sport exhaust with L/R each 1 tail pipe Ø 127 mm angled	<b>R 8,315</b>

### General information

- For best possible performance and sound results it highly recommended that the above listed parts are used as a set, but the Rear Silencer will also fit onto the standard middle silencer pipe as a standalone item.
- Above pricing excludes any fitment or local SA based courier fees, if required outside the JHB area.
- High Grade 304 Grade polished Stainless Steel Exhaust System
- Developed in REMUS's own sound laboratory for optimum performance, appearance and sound effectiveness on the Swift Sport.
- 2 year unlimited kilometre warrantee on any factory defects
- 100% OEM / bolt-on system, no modifications required to the vehicle for fitment whatsoever

## Why a REMUS Exhaust ??

- World's largest manufacturer of aftermarket automobile sport exhaust systems; I.S.O. 9001 and T.U.V. approved O.E.M. supplier to BMW, Mercedes, AMG, Porsche, Ducati, allowing them access to shared CAD files for fully automated quick and accurate fitment. Also included in this process accurate re-calculations and sound testing of the back pressure in a highly sophisticated audio Dyno room. The REMUS Dyno results as an O.E.M. supplier must also be very accurate. Dyno results are 'bolt on' only, with no complimentary engine or control unit modifications required. Where possible, even better results can and will be achieved when fitted in combination with an ECU upgrade.
- Robotic MIG and/or TIG welds that are thicker and stronger. Since moving into automated robotic welding, weld failures have become a thing of the past.
- An appealing appearance that doesn't scream to the authorities, "Hey look at me, I'm a Race System," but indeed, performs like one.
- Either full 303 grade stainless steel construction or hand crafted Titanium in exhaust bodies and tubing. 416 or 441 grade stainless steel chromed steel tips used for tail pipes. Every part / unit specific with regards to optimum reduced back pressure, sound requirements and overall fitment.
- Deep throaty REMUS sound in all systems allowing the power and efficiency to be released. Horsepower increase equals efficiency increase, so fuel mileage is enhanced as well.
- Either 2 or 3 year unlimited mileage warranty and a solid South African Distributor and Dealer in Need 4 Speed Exhausts, who is continuously building the brand and expanding to more and more fitment Centre's, Tuning Shops and dealers country wide.

At the end of 2009, REMUS was again voted for 4<sup>th</sup> year in a row, best aftermarket exhaust supplier in Europe. In addition to this REMUS also at the end of 2010 turned 20 years old .....  
..... now that is quite a mean achievement, and a very hard act to follow!!
