March 1, 2013

**To: Toyota Parts, Sales and Service Managers****SUBJECT: Pirelli World Challenge/Scion Racing Parts Inquiries – FR-S Supercharger**

As part of Scion and Toyota Racing Development's participation in the Pirelli World Challenge series, regulations require Scion to provide parts information through Scion dealership Parts Departments. The requirement is meant to support Pirelli World Challenge race teams that have an interest in racing Scion products.

An FR-S Supercharger has been developed by TRD for **racing use only**. The kit is set up for race teams only, and is not intended/legal for street use. The kit includes only the housing-manifold, rotor group, intercooler cores and low temp radiator. Any mounting/fitment details are the responsibility of the team purchasing the kit. Also, engine management software is the sole responsibility of the team.

Part Number	Cost	Minimum Order Quantity
PTR29-00086	\$26,000/Kit	2 Kits

Order lead time on the kits is approximately 7 – 9 weeks.

**Please note: there is no requirement or expectation that the Parts Department will stock Pirelli World Challenge racing parts.**

**If an inquiry is received regarding this supercharger kit, please have the interested party call 1-888-551-2929, option 2.**
